• Who is Preston Eastin?
• Who Do We Help?
• Can We Help You?
• What Can We Build For You?
PrestonEastin is the positioning solution provider. We help to position and transport products for increased productivity and safer work environments.

We Help:

• Manufacturers
• Robotic Integrators and OEM’s
• Distributors of Weld Equipment
Customers turn to us when subject matter experts are needed.

We want to fully understand and overcome your pain points. These could include:

- Need for Increased Throughput
- Controlling Manufacturing Costs
- Excessive Downtime
- Safety
- Repetitive Quality
- Offshore Delivery Times
We then dive in to development of an efficient, cost effective, quality positioning system to integrate into larger systems, robotics, or factory floors.

This “customer obsessed” process allows for greater awareness of expectations and proposed outcomes. We strive to create strong partnerships; we are easy to do business with, and want to share in mutual successes.
Why *PrestonEastin*?

*PrestonEastin* offers a complete line of powered and servo driven robotic positioning systems and equipment. We custom design and build:

- Traversing Units
- Turntables
- Tilt-Rotate Tables (2-Axis and 5-Axis)
- Headstocks and Tailstocks
  - (Optional Drop Bridge)
- Skyhooks
- Drop-Centers
- H-Frames
- Ferris-Wheels
- Gantries
- And much more....
Why PrestonEastin?

**PrestonEastin** also offers a complete line of manual and powered positioning systems and equipment within our Legacy Products:

- 2 Axis Positioners
- Welding Floor Turntables
- Headstocks and Tailstocks
- Manipulators
- Side beam Carriages
- Turning Rolls
- 3-Jaw Chucks
